INDUSTRIAL FINISHING

We recommend washing at 35° in gentle cycle during 3 minutes using a softener that does not exceed 4% of the weight of the material considering the finishing expected. Centrifuge for 2 minutes. Dry. Use manual iron, if a more pronounced pile is required, washing time or washing cycle revolutions should be increased, but the bath temperature must be reduced to avoid the felting effect.

**COLORS AVAILABLE
MINIMUM QUANTITIES PER COLOR**

Raw white 50Kg
All colors 50kg
