INDUSTRIAL FINISHING

Choice 1: (only for count 2/40) We recommend to steam first, then dry clean with any solvent depending on the result you want to obtain. After this, steam the garment without pressuring the knitted panel.
Choice 2: We recommend washing at 35° in gentle cycle during 3 minutes using a softener that does not exceed 4% of the weight of the material considering the finishing expected. Centrifuge for 2 minutes. Dry. Use manual iron.
