INDUSTRIAL FINISHING

We recommend washing at 35° in gentle cycle during 3 minutes using a softener that does not exceed 4% of the weight of the material considering the finishing expected. Centrifuge for 2 minutes. Dry. Use manual iron. If the fabric turns out excessively felted, the washing time or temperature should be reduced.

Dyeing Method tops
Knot type knot
Pilling 3

SUGGESTED GAUGE

5gg

NOTES:

- Might occur bleeding in design with white stripes and intense colors.
- Consult our sales team about dyeing process that decrease bleeding risk on intense colors.
- Minimum for dark colors subject to revision.
- For solid dark shades, the fastness value could be lower than the one mentioned above. For more information contact your sales executive.
